## Amazing things we have been up to this week!

What a lovely week it has been breaking the attendance record (5 students in Grow at one time!), and of course focussing our learning around careers week. We would like to say a HUGE well done to our newest pupils Sophie and Olivia who have settled in extremely well. Thank you to all pupils for welcoming them so warmly. It can be hard to adjust to change and new situations, but we will always do our best to help our pupils transition into their new Grow family by being as flexible as we can! This week, Sophie has taken the lead on organising our Grow staff kitchen cupboard (we had a few too many cups!) and Olivia did an amazing job taking the lead on the Q&A session with our local baker. They have both completed some fantastic crafts and baking as well as developing a timeline for our 'Getting To Know You' project.

### National Careers Week

This week our pupils' interests have led their research into their own potential future career paths. On Wednesday, they have met professionals from a wide range of industries and were able to confidently develop and ask questions to the professionals we invited to speak with them, to find out more about what their futures might look like! Thank you to Architect Leigha, Car Designer Paul, Cyber Security experts Paul and Nick and our local cafe owner and baker Debra who have really inspired the pupils and their projects this week.

On Thursday, the students received a brief which linked into their interest and used this to lead their own projects, which as you can see from our pictures had some phenomenal outcomes!

### World Book Day

Thank you to all pupils for sharing their favourite books on World Book Day! It was interesting to see and hear about the different style of genres we all enjoy!
